Objective

Detail-oriented IT and Full-Stack Developer with a strong foundation in system support, software development, and web technologies. Experienced in troubleshooting, technical support, and building user-friendly applications. Seeking an entry-level IT support or development role to apply problem-solving and coding skills in a real-world environment.

Technical Skills

- Languages & Web: Java, HTML5, CSS3, JavaScript (ES6+), React, PHP, Python, SQL
- Backend & Databases: Node.js (without Express), PostgreSQL, MySQL, REST APIs
- Tools & Platforms: Git, GitHub, Visual Studio Code, IntelliJ IDEA, Postman, GCP
- Software & IDEs: PyCharm, PhpStorm, Xcode, Android Studio
- Operating Systems: Windows, Linux, macOS

Projects

MiniShop E-commerce Platform

- HTML, CSS, Bootstrap, JavaScript, Flask, PostgreSQL, Python
- Built a full-stack e-commerce web app with product listings, Stripe payment integration, PDF invoice generation, and email notifications.
- Developed an admin dashboard for managing products, stock, and customer orders.

Student Management System

- Node.js + PostgreSQL + Vanilla JS
- Designed a full-stack application to manage student data and course enrollments.
- Built backend data logic in Node.js and frontend forms using HTML/CSS and JavaScript.

Pet Finder App

- React + Bootstrap
- Created a dynamic web interface to browse pets from local JSON data.
- Implemented filters, modals, and responsive UI components.

Weather Dashboard

- JavaScript + OpenWeatherMap API
- Developed a weather forecast app using fetch() and async/await.
- Parsed JSON responses and rendered real-time data in a responsive layout.

Education

B.S. in Information Systems

CUNY School of Professional Studies – New York, NY

A.S. in Programming & Software Development

LaGuardia Community College, CUNY – Long Island City, NY

B.B.A. in Finance & Accounting

Leading University – Sylhet, Bangladesh

Certifications

- Google IT Support Professional – Coursera
- System Administration (Micro-Credential) – CUNY
- Software Engineering Micro-Credential Career Track in Web Development (Boot Camp) – CUNY
